Dear

Silver Spirit Cruises Pty Ltd T/A Maritime Training School was contacted by Remote Training Services to explore the possibility of conducting a training course in Maritime Operations Certificate I Coxswain 2 in a very remote area in Far North QLD to a group of 9 council rangers to enable them to conduct turtle counts and monitor illegal fishing. Dijsa was polite and helpful in providing the required information on what course would be suitable and agreed to put a team together to contextualise a course that would meet the potential learning difficulties as well committing to flexible arrangements that includes 'Sorry Business' and shyness of the individuals.

The course was successfully completed within the time frame and the team were accepted by the group as friends. The course was run as a face-to-face group discussion format with little presentations and plenty of practicals. The group was engaged and satisfied with the outcomes.

Collaboration in the future will be possible as need arises.

Thank you for supporting my team and the Rangers of Kowanyama.

Please see some photos from the training

Kindest Regards
Anthony Willett
